Professional Outsourced Sales and Marketing Services to the Electric Utility Industry Since 1934

	Digital transformer temperature controller
	Fiberglass Composite Light Poles
	Digital panel board meters
	Batteries and battery racks
	High voltage switches & motor operators
	Copper Clad Steel Cable (CCS) and Copper Clad Aluminum Cable (CCA)
	Bus, cable and ground connection systems for substations
	State of the Art portable battery testing equipment
	U-molding, guy markers, pedestals, and junction boxes.
	Tubular steel poles for transmission and distribution, substation structures, transmission lattice structures
	Ground rods, clamps and connectors
	Terminal blocks & shorting blocks -American made
	Battery chargers, inverters, ups systems
	LED Street Lights

	Corona Detection Cameras
	High quality porcelain station posts, bushings, and suspension insulators
	Relay test sets, primary substation test sets
	Intelligent automatic capacitor controllers
	Ripley - outdoor lighting controls
	PVC Cellular Core Conduit and Duct
	Highly reliable and secure communication networks for substation applications
	Annunciators
	Insulation piercing connectors
	Transformers, regulators, breakers, circuit switchers, relays, reclosers, switchgear, GIS, RTUs, SCADA systems, MDMS
	Complete line of cable, rope and fiber optic, pulling and suspension grips
	Potential equipment transformers, constant current transformers, capacitor blocking units
	Portable Degassing and Water Removal for Transformers
	Lightning protection products
